

ALIZA HAVA

Aliza Hava is an award-winning, independent singer/songwriter and Founder/CEO of Musician's BASS, an early-stage music tech startup developing business management software for independent artists. Hava's diverse background in music performance, songwriting, management, education, community building, and concert production led to her creating the platform, which was recently awarded the grand prize for innovation and excellence in the 2019 Monterey Startup Challenge.

Throughout her music career, Aliza has alchemized a unique signature aesthetic -- melding folk, rock, R&B, and pop with literate and emotionally resonant lyrics. On her 2017 EP, *Songs for Social Change*, her lyrics span humanitarian issues and personal revelation with purposeful, fiery, and thought-provoking words informed by years of activism in peacebuilding and environmental movements. Her songs have been included on compilations and soundtracks with songwriting luminaries such as Annie Lennox, Lucinda Williams, and Rickie Lee Jones and her upcoming album, *Natural State*, features ten original songs and the Midas-touch of multi-platinum, Grammy-winning producers Toby Wright (Heart, The Wallflowers), Stephen George (Sting, Paul Simon) and Bay Area producer/masterer Bill Hare (Pentatonix, Lindsey Stirling).
